

A close-up photograph of a middle-aged Black man with short, graying hair, smiling warmly at the camera. He is wearing a light blue button-down shirt over a white t-shirt. The background is softly blurred, showing what appears to be an indoor setting with bookshelves.

BROOKS[®]
Rehabilitation

Aphasia Center

The Brooks Aphasia Center provides comprehensive support for participants affected by aphasia due to stroke, traumatic brain injury, brain tumors or other neurological disorders.

The Aphasia Center offers two programs, including a **community track** and an intensive, **comprehensive track**.

- The community track provides coordinated group activities to help reduce barriers to communication.
- The intensive, comprehensive track combines individual therapy and immersive group rehabilitation for 20 hours per week for 6 weeks.

Both tracks begin with comprehensive assessments. They also include communication training for partners and programs for support at home.

Membership Criteria:

- Documented diagnosis of aphasia
- Age 18 or older
- Able to participate independently or with a caregiver
- Behavior is not disruptive or offensive to others
