# Transparency in Coverage Rule Links

## Information for Employers

June 14, 2022

As you may be aware, the Transparency in Coverage Rule requires group health plans to post pricing data on their websites in the form of Machine-Readable Files (MRFs). To assist with this new requirement, we've created a link on your behalf.

We will host the files on our website at the following address: https://member.myhealthtoolkitfl.com/web/public/brands/universal/transparency-in-coverage/?branding=fl

You may use this link on your own websites to direct users to the required data. Please note, this link will not be live until later June. The files will be available on July 1, 2022. We will also post a link to this search tool on our main member website.

Our website will allow users to search for MRFs by the employer's IRS employer identification number (EIN) or Health Insurance Oversight System (HIOS) ID. The search will return all relevant files for the employer based on the EIN/HIOS ID and network code.

The easiest way for members to find pricing information remains the "Find Care" link on My Health Toolkit. This searchable option is member friendly and provides estimated cost and real-time member liability for a variety of services.

Please feel free to reach out to your account management team if you have any questions.
