Exceeding patient expectations

Expertise in treating the most complex patients

Community health and wellness programs provide ongoing recovery support at little or no cost

Brooks invests more than \$12 million annually in these programs

- ▶ One of the most comprehensive adaptive sports and recreation programs in the country providing fun and fitness for individuals living with disabilities.
- ▶ The Neuro Recovery Center offers cutting-edge rehabilitation equipment and technology during formal therapy and after traditional therapy concludes.
- ▶ The Aphasia Center offers both a social language community group and an Intensive Comprehensive Aphasia Program.
- ▶ The Brain Injury Clubhouse provides a bridge between medical rehabilitation and community and vocational reintegration for individuals with an acquired brain injury.
- ▶ A Clinical Research Center conducting innovative research studies to expand the knowledge and science of recovery.
