

Beyond Recovery

BrooksRehabilitation offers a full system of care—from inpatient to outpatient to post-rehabilitation programs—to meet each patient’s needs at all stages of recovery. The depth and breadth of services offered at Brooks mean patients receive highly personalized care focused on their specific goals.

For more than 50 years, our stroke program has been helping patients to achieve their greatest possible outcomes by utilizing technology paired with intensive evidence-based therapy provided by expert clinicians. At our state-of-the-art facilities, we use the most innovative technology available in the country, including motion assisted technology, functional electrical stimulation, virtual reality systems, body weight support and overground gait training systems, biofeedback systems, and Hybrid Assisted Limb technology (HAL).

Brooks also offers specialized programs developed to help with the unique needs of stroke survivors, such as: driver rehabilitation, day treatment, Neuro Recovery Centers, Brooks Clubhouse, Brooks Aphasia Center, wellness and Brooks Adaptive Sports & Recreation.
