We Go Beyond for
Patients When They Need
Us Most.

At Brooks Rehabilitation, we
empower patients to achieve their
highest level of recovery.

Brooks provides a comprehensive
continuum of interdisciplinary care
that supports the physical,
emotional and social recovery of
patients and their families.

As a physical rehabilitation system
of care, we can meet patients where
they are in their recovery journey -
whether they need inpatient
rehabilitation, outpatient services,
home health, skilled nursing care or
community services and programs.
